RESEARCH INTERESTS

My research interest lies in the intersection of signal processing, machine learning and information theory. I design novel algorithms for a wide range of signal reconstruction and classification problems. I also work on theories that predict the behavior of algorithms. Representative works cover topics in imaging, speech recognition and language modeling.

EMPLOYMENT

July, 2016 — **Research Scientist, Baidu Silicon Valley AI Lab**

Projects (inverse chronological order):
- Simultaneous Machine Translation (ongoing)
- Stability of Word Embedding (ongoing)
- Large Margin Neural Language Models: language model for speech recognition (1.11 WER reduction) and machine translation (0.96 BLEU increase).
- Improved optimization of CTC loss: smaller CTC loss by using estimated alignments
- Active learning for speech recognition: 50% fewer labels, but comparable accuracy

EDUCATION

May, 2016, **Ph.D, Electrical and Computer Engineering, Duke University**

Advisor: Robert Calderbank

July, 2011, **B.S., Electrical Engineering, University of Science and Technology of China**

Other Experience

Reviewer for Journals and Conferences

- IEEE Transactions on Signal Processing
- IEEE Transactions on Knowledge and Data Engineering
- International Conference on Machine Learning (ICML)
- International Conference on Acoustics, Speech and Signal Processing (ICASSP)
- IEEE International Workshop on machine learning for signal processing (MLSP)
- Global Conference on Signal and Information Processing (GlobalSip)
- International Conference on Image Processing (ICIP)

Research Intern at NEC Labs America, Summer, 2013

- Anomaly detection on heterogeneous time series (Supervisor: Dr. Xia Ning)

Awards	Student Travel Award, International Conference on Computer Vision (ICCV) 2015 Student Travel Grant, Duke University, 2014 Duke graduate school Fellowship, 2011-2012 Distinguished Graduate, University of Science and Technology of China, 2011
Programing Skills	Deep learning frameworks (Tensorflow, pyTorch, Caffe) Python, C/ C++, Matlab, LaTeX.
